Calendar Remindeer

Prepared by:

Balajadia, Celino, Guevarra, Isiderio, & Pesito

Group 71 BSIT1-20

Description

- A simple program created using Python.
- Purpose: help users to list and manage their important date & time.
- Console-based application — easy to use.
- Has four primary feature: add, view, delete, and search reminder.

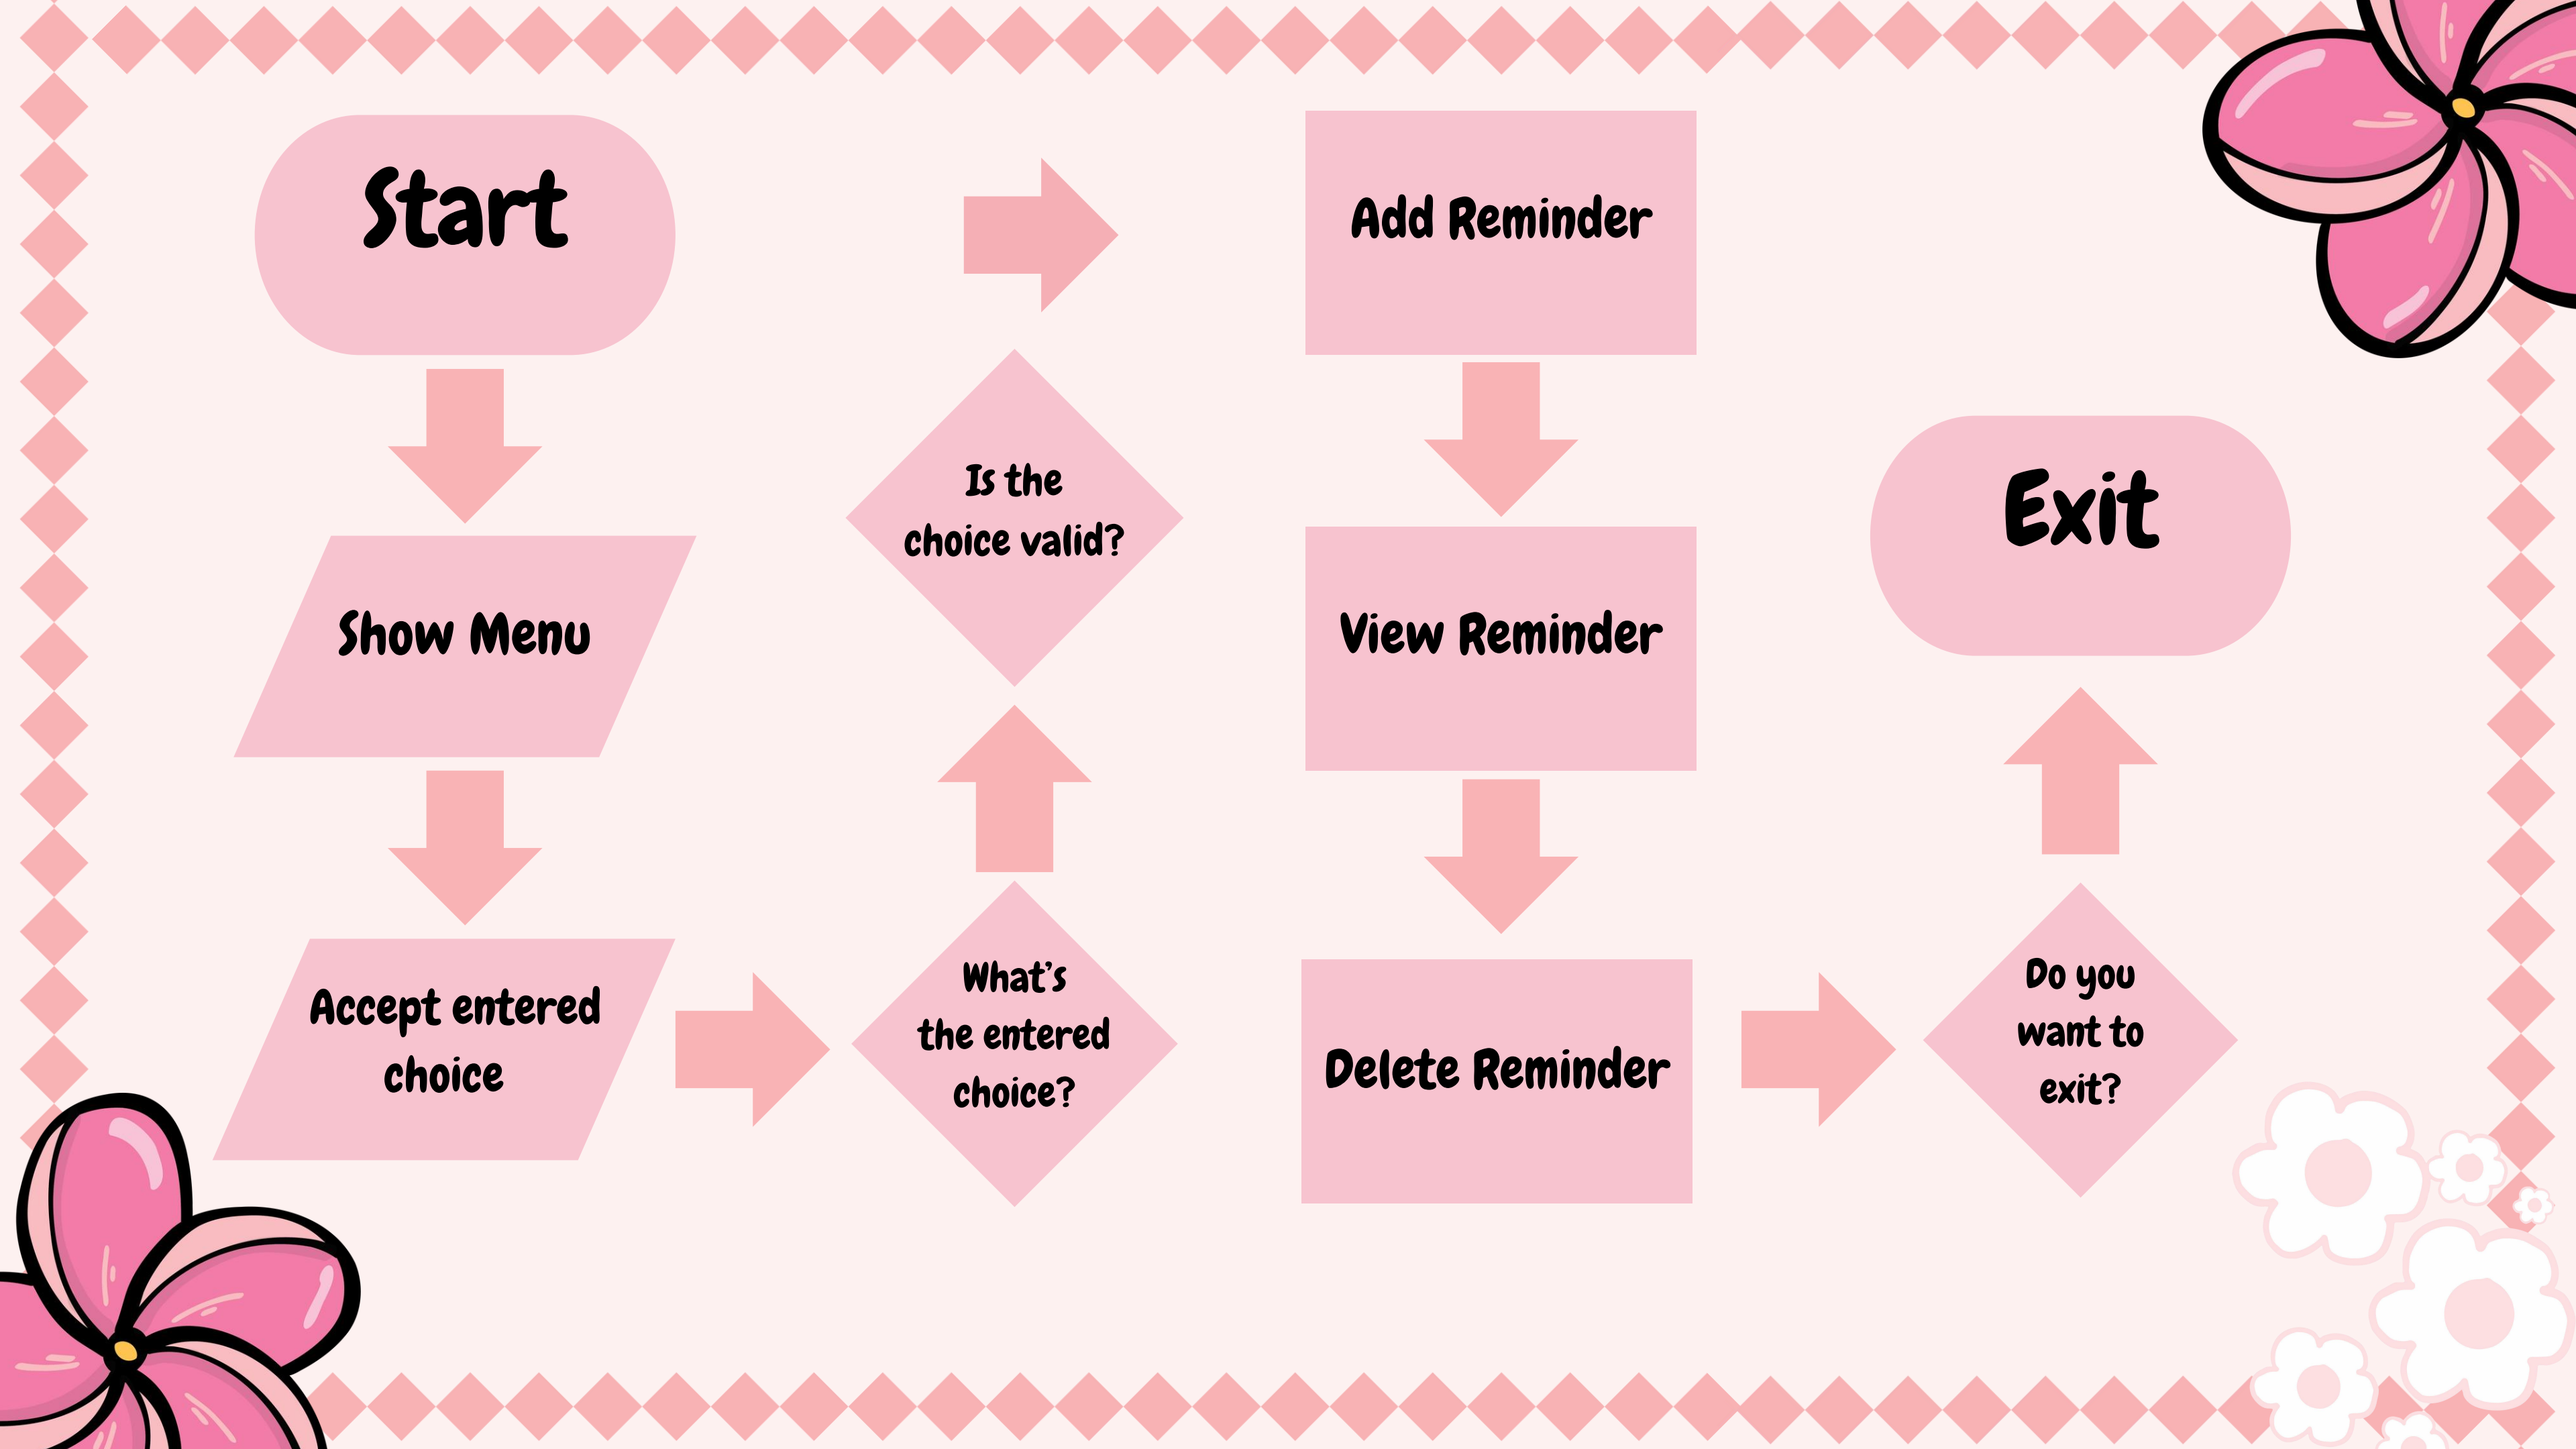

Objectives

General Objective:

To develop a Calendar Reminder.

Specific Objectives:

1. Create a program that allow users to store information like date, time, and reminder notes.
2. Can show a list of all listed reminders in order and clear way.
3. Can delete reminders that's not needed by the users to maintain list order.
